FOCUS ON CUSTOMER SATISFACTION

# A Multifunctional and Stylish system

Sysco® is a highly solid and multifunctional system. This modular system has multiple dimensions to flushly fit all available space, even around pillars, ventilation shafts and other objects. The system provides an economical solution to be frequently used, by multiple users. All information you need is directly accessible. Whatever filing system you use, Sysco® can be adapted to your needs and wishes. Sysco® is highly suitable for use in offices, archives, repositories, shops and warehouses.

## Focus on flexibility

The sidewalls are available single closed, flush closed and may be provided with perforations to allow ventilation and hence optimum preservation of your documents. Sliding doors or roller front doors further protect the system's contents. The Sysco® system's unique coating process guarantees one hundred percent coverage of steel for a perfect finish. Sysco® is finished in grey-white RAL 9002 but can also be finish in other colour options, including premium powder-coatings in 10 colours and 9 monoform designs.

Sysco® is available in a wide range of dimensions		
Depth	Width per section	Height
200, 250, 270, 300, 320, 350, 370, 390, 400, 450 mm	800, 1000, 1200 mm Section length 900, 1100, and 1250mm: limited choice of accessories	914 to 2994 mm in increments of 40 mm.

## Focus on multifunctionality

A wide range of accessories are available for the Sysco® system, such as frames for suspension files, bookends, section partitions, trays and drawers, all of which are tailored to the most commonly used filing and organisational methods.

## A wide range of dimensions

The flexibility of the Sysco® system can also be seen in the fact that it can be easily adjusted and expanded, and that the racks can be converted into a space-saving mobile system at any time. To put it simply, Sysco® is a sound investment.

Other dimensions available upon request.  
Shelves can be loaded up to 155 kg.  
Shelves can be adjusted in 20 mm increments.
